Signs of the ways in Germany

24 associations with 8516 members
13408 Credentials
statistic 12/22

The development of the cooperation from german pilgrim associations called:

Arbeitsgemeinschaft deutscher Jakobus Vereinigungen (AGdJV)

- ❖ The most associations were foundet in the 80s
- ❖ These take care for the caminos in Germany and provid 20 albergues
- ❖ The most important theme is to train pilgrim guides and give pilgrims advices to walk the camino
- ❖ In 2010 a work group was established to connect the associations of Germany
- ❖ A World Pilgrimsday arise ten years ago during the week of the day from St. Jakob 25.07.
- ❖ Now we collect the routes in Germany from all associations in a file to get an overview.
- ❖ In the first time we met each other two times a year to inform about events and created albergues, for just some hours in Würzburg.
- ❖ We recognized that it was not enough time to cooperate.
- ❖ Now we have one meeting per year as a video conference and one as a privat meeting for three days.
- ❖ This is the most efficient way to work together.
- ❖ Every association has its own identity and strategy to serve pilgrims for the camino.
- ❖ But now it is the best step to join, walk together and have the opportunity to speak with one voice.

Thanks for your attention

Muchas gracias
